

Cross-Platform Solutions: Microsoft and Novell

With the rising trend of migrating directory services, it is common for many organizations to be running multiple operating system platforms. Management and reporting within these different environments can be cumbersome and lead to inaccurate results. Now there is a tool, backed by an unmatched support team, to help provide a simple, accurate way to manage your multiple platforms.

Visual Click introduces a cross-platform solution that combines DSRAZOR for Windows and DSRAZOR for NetWare applets into a single management console. With this new addition to DSRAZOR you can report on or manage both environments concurrently. For example:

1. Find all accounts that have not logged into eDirectory/NDS for 30 days and all accounts that have not logged into Active Directory for 30 days.
2. Show members of all eDirectory/NDS groups and Active Directory groups together.

Additionally, you can delegate a single executable applet to your helpdesk staff that lets them perform tasks for both environments at the same time. For example:

1. Change eDirectory/NDS and Active Directory passwords.
2. Delete unused accounts for eDirectory/NDS and Active Directory.
3. Disable unused accounts for eDirectory/NDS and Active Directory.

The screenshot displays the 'Find User Accounts that have not logged on in the past 30 days' window. It is divided into two main sections: eDir/NDS and Active Directory (AD).

eDir/NDS Section:

- Select eDir/NDS Container:** A tree view on the left shows containers like a1, a2, a3, a4, a5, a6, atest, charlie, chlax, NA, ProdGW, SFS, ldi, test, and trusteesof.
- Users found:** A table lists users with columns for 'is Disabled?' and 'Last Login'.

Users found	is Disabled?	Last Login
AClark	Enabled	10/31/05 09:45:11
admin	Enabled	04/05/06 09:56:08
Administrator	Enabled	08/21/06 14:26:30
AMayfield	Enabled	10/17/05 06:59:35
Chris	Enabled	06/30/05 09:34:34
DFCU	Enabled	04/22/04 16:08:45
dgrabner	Enabled	03/23/05 08:47:59
JGallagher	Enabled	06/30/05 10:43:42
jhuggans	Enabled	06/19/03 15:11:45
Jim_Normal	Enabled	05/25/06 14:47:34
jimg	Enabled	03/01/05 12:18:46
JMcCann	Enabled	11/15/05 12:02:56
Justin	Enabled	11/16/05 08:45:13
- Summary:** Number Selected: 1, Number Found: 29. Buttons for 'Delete selected eDir/NDS Accounts' and 'Disable selected eDir/NDS Accounts' are visible.

Active Directory (AD) Section:

- Select Container in Active Directory:** A tree view on the left shows containers like dsrazor.local, Accounting, AM, AP, Builtin, Campus Computers, CAN, Computers, CDV, Customer Services, Development, DLTest, Domain Controllers, DSR Computers, and DSRT est.
- Users found:** A table lists users with columns for 'is Disabled?' and 'Latest Logon Date'.

Users found	is Disabled?	Latest Logon Date
George Jetson	FALSE	Fri Aug 18 14:23:00 2006
Testuser-300	FALSE	Mon Aug 14 11:04:00 2006
Testuser-304	FALSE	Mon Aug 14 11:06:00 2006
Testuser-320	TRUE	Mon Aug 14 11:23:00 2006
Testuser-323	TRUE	Mon Aug 14 11:26:00 2006
Testuser-326	TRUE	Wed Jun 07 09:50:00 2006
Testuser-329	TRUE	Wed May 24 10:02:00 2006
Testuser-345	FALSE	Tue May 02 15:10:00 2006
Testuser-351	FALSE	Thu Mar 31 15:01:00 2005
Testuser-352	FALSE	Thu Mar 31 15:02:00 2005
Testuser-353	FALSE	Thu Mar 31 15:02:00 2005
Testuser-354	FALSE	Thu Mar 31 15:03:00 2005
Testuser-355	FALSE	Wed May 17 01:51:00 2006
- Summary:** Number Selected: 1, Number Found: 40. Buttons for 'Delete selected AD Accounts' and 'Disable selected AD Accounts' are visible.
